### Care Instructions for Refinished Surfaces

**USE** any liquid or foam cleaners such as: Simple Green, Lysol, Scrubbing Bubbles Foaming Cleanser, Touch Act, Ammonia, Top Job, Mr. Clean, Dow Bathroom Cleaner, or Method Cleaner.

**DO NOT USE** abrasive and/or acidic cleaning products such as: Ajax, Comet, Soft Scrub, Tilex, X-14, scouring pads or any product not designed for use on the bathroom or kitchen fixtures.

**DO NOT USE** adhesive decals, adhesive tape, non-skid applications, and/or hair dye because these items will damage the finish.

**DO NOT USE** rubber mats with suction cups, it will cause damage and void our guarantee. If you use a rubber mat without suction cups, remember to remove it from the surface immediately after each use and allow it to dry elsewhere.

If your refinished surface becomes badly soiled, use a cleaning pad that is safe for use on “Teflon” and/or “Silverstone”. This will scrub the surface without damaging it.

In the event that a soap film (dull white/yellow film) builds up on your refinished surface, use full strength distilled white vinegar on a sponge to remove it.

Should you want to use an abrasive action in order to remove a difficult stain from your refinished surface, you may use baking soda and water in a paste like consistency. This will allow for deep cleaning without scratching.

**PLEASE NOTE** water can damage any finish if left standing for a long period of time. Do not leave wet towels and/or washcloths on your refinished surface. After each use, wipe any areas of standing water such as: soap dishes, low corners, or depressions. It will prolong the life of your refinished surface if you wipe it dry after each use.

**ALSO NOTE** sharp or heavy objects can chip your refinished surface upon impact. It’s best to store items where they can’t easily be dropped onto the surface. This includes heavy shampoo bottles with sharp lids and plastic play toys.

Follow the above care instructions, and your refinished surfaces will stay bright and shiny for many years!

***Thank you!!***
